### Sample Project Budget Acquisition & Development Application

The Budget Items in the Project Budget should describe the proposed work in such a way that grants staff and the Grant Review Panel or Florida Historical Commission can evaluate its compatibility with the preservation objectives of the Historic Preservation Grant Program and the applicable preservation standards. *Note:* Budgets itemized with Construction Specifications Institute (CSI) divisions are not considered appropriate for this purpose because these division categories are not sufficiently descriptive of the intent of the work. Typical CSI division categories include: metals, masonry, thermal and moisture protection, finishes and specialties. Compare these with the more descriptive examples shown below.

#### a) Project Budget

Work Item	Description	<b>Grant Funds</b>	Match Type	Match Value	Sub-Total
